Description:

Using copper wire and a variety of chip beads, you will create your own one-of-a-kind pendant. And just like real trees, it is guaranteed no two tree pendants will be exactly alike.

Kelley will show several trees she has created using the basic technique (including a Christmas tree decorated with seed bead ornaments) and she will talk about the construction of each so that you won't be limited to this single design after you master the techniques taught in the class.

\$5 Materials kit includes a step-by-step illustrated tutorial, a handout

explaining types of wire and wire gauges, 2 gauges of copper wire, and a choice of chip beads in various colors

Tools needed: flush cutting pliers (make sure they will cut wire at least up to 18 ga.), chain nose pliers (smooth, no teeth), round nose pliers, tape measure or ruler

* Payment must be postmarked by June 9th to guarantee your seat.
Seats will NOT BE HELD for any reason.
