In this class you will make a spiral key chain utilizing beads in the braid. We will also explore many of the variations made possible by changing the number of threads, placement of colors and using different textures of threads. This class is intended to give you a good introduction to the exciting world of braids.

Please let me know if you want a kit (\$10.00) and if you have or need a disk. For the kit, please choose a main and accent color.
